New York Stock Market

New York, October 19.—Quotations held steady to-day through an un-usually prosale session of the Stock Exchange. There seemed to be no business and nothing to attract busbusiness and nothing to attract business. Conditions a frecting market values remained unchanged, and traders saw no incentive to activity, with the result that at times the market came to a standstill. The standard stocks barely moved, and changes of any size were restricted for the most part to less active issues.

The only appearance of activity was in the first hour, when prices rose generally. The rise was only fractional in the active shares, except in the cases of Union Pacific and Lehigh Valley, each of which gained a point. It is probable that the buying which prompted the rise was in the nature

Valley, each of which gained a point. It is probable that the buying which prompted the rise was in the nature of a demonstration against the short interest, which is believed to have been increased largely within the last week. The movement was not effective and the market soon fell back. Among the less active issues, Norfolk and Western was conspicuously strong, with a 3 point gain. Several of the Southern railroads continued yesterday's upward movement, but Atlantic Coast Line and Louisville and ivashville, which led in the advance, fell back sharply to-day. Prospects of a record cotton crop, on which buying of the shares of Southern roads has been based, were effective also in advancing American Cotton Oil. Allis Chaimers preferred, after its recent heavy break, moved slowly to-day, but the bonds showed further heaviness. The decrease of \$4,000 tons in the amount of unfilled orders on the books of the United States Steel Corporation September 30, as reported to-day, was in a neglective sense, unexpectedly favorable.

Shipments during September were considerably heavier than in the pre-

In a neglective sense, unexpectedly favorable.

Shipments during September were considerably heavier than in the preceding month, and a heavier decrease than that reported was looked for. The statement, however, was without influence on the stock. Some gains are reported in the volume of new orders for steel products, but the increases are small in view of the low prices now prevailing, and earnings for the current quarter for some of the steel companies are expected to show a large falling off. The copper warket was heavy to-day, in sympathy with the lower quotations reported abroad. In view of yesterday's report of the copper producers, disclosing a large increase in stocks of the metal. lower prices are looked for by some consumers, although sellers to-day made no material concessions. Exports thus far this month have been fight.

light.

Demand sterling again advanced.

The possibility of further gold exports excites no apprehension, since the local money market is still over-supplied. The unrelieved pressure of accumulate, funds is reflected in a decline in rates on mercantile paper, some business now being done as low as 41-4 per cent.

per cent.

The bond market was firm. Some of the Southern and Southwestern bonds were especially strong. The American Tobbaco issues were heavy at the outset, but rallied later. Total sales, par value, \$2.254,000. United States bonds were unchanged on call. Total sales, 254,000 shares.

New York, October 10.—Money on call steady, 21-4@21-2 per cent; ruling rate, 21-4; closing bid, 23-8; offered at 21-2. Time loans steady; sixty days, 3@31-4, and ninety days, 21-2@33-4; six months, 23-4@4. Prime mercantile paper, 43-4 per cent; sterling exchange firm, with actual sterling exchange firm, with actual business in bankers' bills at \$4,5315 for sixty-day bills, and at \$4,855 for demand. Commercial bills, \$4,8675. Bar silver, 52 1-2. Mexican dollars, 45.

New Orieans, La., October 10.—Cotton futures opened steady at a decline of 364 points. Cables were lower than due and encouraged short selling in the early trading in spite of unfavorable weather returns from the belt. The close was barely steady at a net advance of 143 points. On the map too much rain was shown for the good of open cotton. Low temperatures still prevailed in Oklahoma, with indications of light frosts at a few points. The market was not active, and with no support coming from the buils was inclined to say, On the decline shorts became good profit-takers and fresh buying for long account came in. Commission houses reported some little buying of an investment character. Reports from not a few localities in the cotton belt indicated a somewhat better spot demand, and stronger holding of cotton on the part of the farmers. From several counties in Mississippi telegralis were received stating that cotton was all picked. This news helped the market was at first depressed to almost the low levels of the morning by the declines in the Southern spot markets, but later a heavy porti-taking movement started among shorts and at 2 o'clock this put prices 246 points over yesterday's close. Spot cotton steady, 1-16c. off; indiding, 911-16c. Sales on the spot, 515 bales and 1,300 to arrive. Receipts. £225 bales; stock, 58,373 balos. The market closed barrely steady. Cosing bids. October, 2,50; November, 2,52; Inecember, 2,52; January, 2,55; March, 2,57; March, 2,57;

The General Public

Turns a sharp eye to the advertising columns of the daily press, and the business man who fails to recognize the fact is simply behind the times.

The above observation has just been confirmed to our satisfaction.

In yesterday's Times-Dispatch this Company carried five separate advertisements. They were all read by one of the best lawyers in Virginia, who took the trouble to call and tell us that he had seen them. They were-

1st. Notice of qualification as Executor and Trustee under the will of the late Mr. Wm. J. Ander-

2nd. Notice of qualification as Administrator of the estate of Mr. John J. King. 3rd. Notice of qualification as Administrator of

the estate of Mrs. Susan E. King. 4th. Notice of sale of 405 West Marshall Street,

as Substituted Trustee, under order of the Chancery

5th. Our regular advertisement in this space.

Please remember-reader-that our main business is acting as Executor, Administrator, Trustee and Guardian.

REVIEW OF CROP CONDITIONS.

REVIEW OF CROP CONDITIONS.

Prospects Improved in Nearly All Seltions by Favorable Weather.
Washington, October 10.—Favorable growing weather, general rains, warmth and absence of widespread frost during the past month in most parts of the United States improved the prospects of nearly all crops which had not previously reached maturity, according to the Department of Agriculture's general review of crop conditions, issued to-day. As a consequence the condition of all crops combind on October 1 was approximately 13.3 per cent below average conditions on that date, as against 15.2 per cent, below on July 1, and 10.7 per cent, below on July 1, and 10.7 per cent, below on July 1, and 10.7 per cent, below on June 1.

Condition of important crops on October 1, or at time of harvest, on the basis of 100 representing average, init normal, conditions, follows:

Apples, 114.1; cotton, 106.3; sugar cane, 106.5; lemons, 104.6; pears, 103.6; grapes, 103.4; sugar beets, 102.4; oranges, 101.5; rice, 99.0; peanuts, 96.8; sorghum, 96.7; tobacco, 96.5; sweet potatoes, 94.2; corn, 85.6; potatoes, 82.7.

Of the crops aiready reported upon quantitatively, it is estimated that, as compared with the average annual

The Final Basis Of Confidence

The final guarantee of everything good and valuable in this world and in the banking business is personal integrity, tested by sufficient time to make it a fixed quality.

The respect and trust accorded this institution are based, not so much upon its large business and complete organization, but upon trusts well executed for thousands of satisfied customers who have found no flaw in its methods and dealings for forty-six years.

More trusts of the same sort will be gladly received.
